### **Data Protection Policy**

This policy covers the General Data Protection Regulations and an individual's rights as set down in the Freedom of Information Act 2000.

The setting requests information from parents about their child and family, which will include personal data, to comply with current legislation and ensure the safety and welfare of the child. We are required to hold and use this personal data to comply with the Statutory Framework for the Early Years Foundation Stage, Ofsted, Department for Education and the local authority.

In all circumstances, we will request written parental consent to process data. Parents will be asked to sign permission forms so that they clearly understand exactly what they are giving consent for. Parents can also withdraw their consent at any time, for example, taking photos of their children.

### **Security of information**

The setting will ensure that measures are taken to safeguard personal data and privacy in accordance with the General Data Protection Regulation (GDPR). Everyone connected with the setting has a personal responsibility to ensure that any information of a personal or sensitive nature, to which he/she has access during his/ her work, is protected from unauthorised access and disclosure.

The GDPR stipulates that anyone processing personal data must comply with six principles of good practice that are legally enforceable. To comply with these regulations, we will ensure:

1. The processing of personal data will be lawful and fair. We will be clear about what data we are collecting, and why, and seek your written consent.
2. Data will only be used for the purpose it is intended. It will not be used to market a product or service or be processed in a manner that is incompatible with the purpose for which it was collected.
3. Personal data processed must be adequate, relevant and not excessive in relation to the purpose for which it was processed. Only data appropriate for the purpose it was collected will be held.

We are required by law to keep some data after a child has left the setting (see Data Protection Impact Assessment). We have a review plan in place and ensure that any data is disposed of appropriately and securely.
5. Personal data will be kept for no longer than is necessary for the purpose for which it is being processed.
6. Personal data will be kept confidential and processed in a manner that ensures appropriate security. Electronic storage of such material will be password protected (firewall and virus protection software are in place), and paper copies of personal data will be held in locked secure cabinets. For any records stored using an online digital solution, we will ensure we have carried out due diligence to ensure they are compliant with GDPR.

The setting is registered with the Information Commissioner's Office (ICO),

### **Subject access**

Parents have the right to request records held about their child at any time. This information will be provided within one month from the written request.
